About InfraGard®

InfraGard is a unique alliance between the Federal Bureau of Investigation (FBI) and members of the private sector for the protection of U.S. critical infrastructure and the American people. As one of the nation's largest public /private collaboration outreach programs, InfraGard connects critical infrastructure owners, operators and stakeholders with the FBI to provide education, networking and information sharing on security threats and risks. InfraGard's membership includes corporate security managers, directors and C-suite executives, cybersecurity and IT professionals, chief information security officers, financial services executives, healthcare professionals, emergency managers, military and government officials, academia, federal, state, and local enforcement, and more - all dedicated to contributing industry-specific insight and advancing national security.

The InfraGard Program is managed through a cooperative agreement between the FBI Office of Private Sector and InfraGard National Members Alliance, an independent nonprofit corporation that represents the 77 local InfraGard Member Alliances (IMAs). Individual InfraGard members are affiliated with their local IMA, and each IMA is affiliated with one of the FBI's 56 Field Offices.
